Dear Madame,

Following our meeting this morning, through this letter I would like to confirm the offer of our services to this Hospital, within the Tchuma Tchato Project, in regards to visiting and comforting the patients in their hour of need. This service will be rendered in a strictly voluntary basis.

Moreover, within our possibilities and in counsel with you and/or appointed staff, we will be taking notes of any physical needs the patients might have and perform the necessary procurement to obtain them from companies and individuals.

These are the names of the missionaries;

Clara Collazo
João Rodrigues
Maria Ferreira
Carlos Viana

With nothing else for the moment, we wait for your call to setup the visiting schedule.

Kind Regards,
